# Problem Statement

Women confront a critical issue encompassing high levels of gender-based violence, limited healthcare access, and entrenched gender inequalities. This crisis adversely affects women's physical and mental well-being, hinders their social and economic progress, and necessitates urgent, multifaceted interventions.

## Women's Welfare

Presented By : NayiNazar

# VISION

Our vision is to create a society in where women enjoy a safe, supportive environment free from all forms of violence, have equal access to quality healthcare, and thrive in a culture that respects and upholds their rights, ultimately empowering them to lead healthy, fulfilling lives.

# SYMPTOM CHECKER

The Symptom Checker Portal is a vital tool in promoting women's health and well-being. It offers an intuitive interface where users can input their symptoms, providing a preliminary assessment of potential health concerns.

The portal provides valuable information on preventive measures and self-care practices.

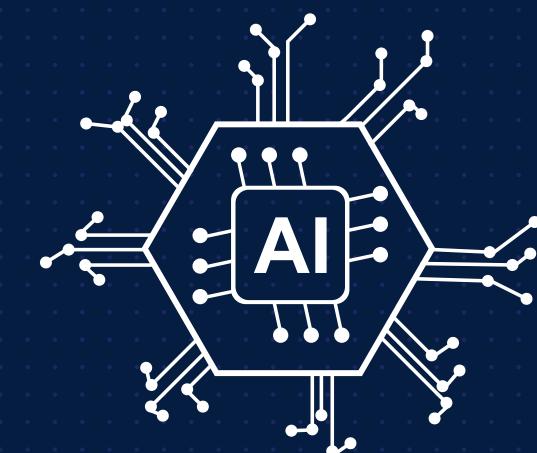

# Workflow

①

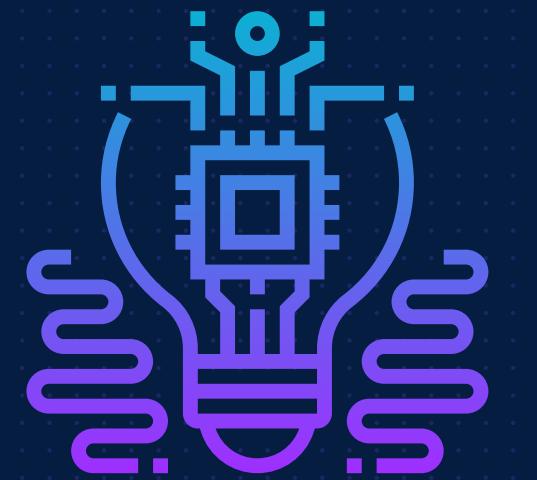

Input data

②

POST Data to OpenAI API

Data Processing

③

GET data from OpenAI API

④

Display Output

# Location Tracking

Our Location Tracking Portal enhances women's safety. It offers real-time GPS tracking for immediate assistance. Users can discreetly share their location with chosen contacts or authorities, ensuring swift response in emergencies. This feature prioritizes personal security and peace of mind.

# Workflow

①

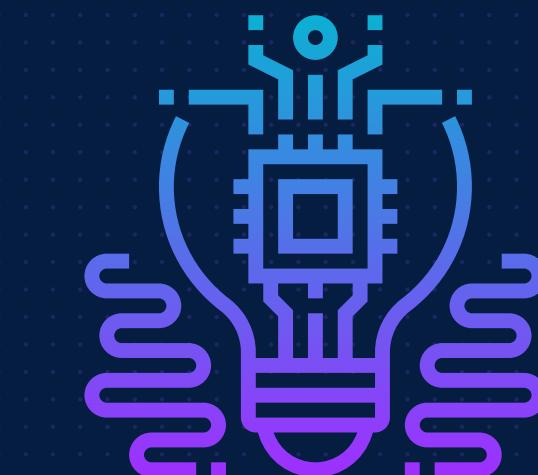

Input data

②

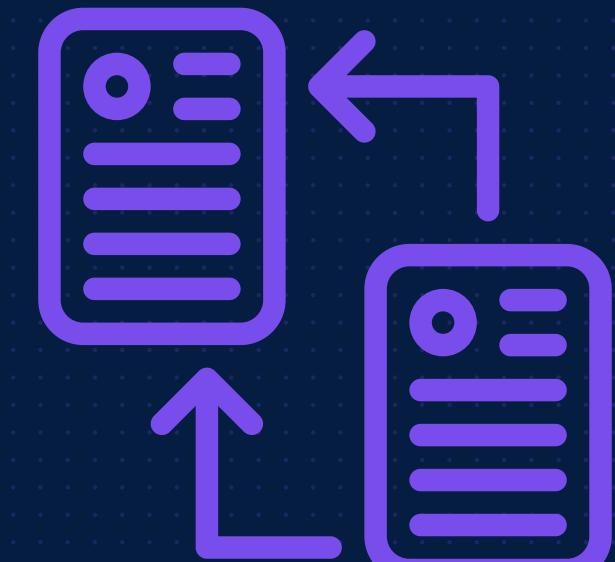

POST Data to MapBox API

Data Processing

③

GET data from MapBox API

④
